VOL. XXVI, No. 43

DIDSBURY, ALBERTA, THURSDAY, OCTOBER 24, 1929

\$2.00 per Year. 5 cents a copy

LOCAL U.F.A. ENDORSES M.L.A.'S LIVESTOCK POLICY

At a well attended and enthusiastic meeting of the Didsbury Local U.F.A. No. 12, held in the Opera House, Saturday afternoon last, Mr. A. B. Claypool's M.L.A. address was well received. His livestock policy was endorsed by the local organization.

A series of public meetings throughout the district as well as Didsbury has been arranged by the local U.F.A. at which Mr. Alfred Speakman, M.P., will be the chief speaker. Mrs. Hepburn, president of the Federal U.F.A. association and Mr. R. Pye, past president. Mr. Speakman will address the meetings at the following points on important legislation passed at the last session of parliament:

Tuesday, Oct. 29 — Lone Pine Hall, 8 p.m.

Wednesday, October 30 — Westcott School, 3 p.m., and Zella School, 8 p.m.

Thursday, Oct. 31 — Rugby School, 3 p.m., and in the Didsbury Opera House at 8 p.m.

Everybody is invited.

WEDDINGS

An interesting wedding took place on Thursday, October 10th at 6:30 p.m. when Elizabeth Mashinter (nee Fox) became the bride of Dorris M. Wilson, of Didsbury. The wedding took place at Knox United Church, Calgary, Rev. Geo. Dickson officiating.

The bride was becomingly dressed in blue crepe and carried a bouquet of white roses. Miss Nina Wilson acting as bride-maid wore pink crepe and carried pink carnations. Mr. B. A. St. Clair assisted the groom. Immediately after the ceremony the party adjourned to the Empress Grill where a wedding supper was served.

W.C.T.U.

A pleasant evening was spent Tuesday last when about 50 members and friends of the W.C.T.U. met at the beautiful country home of Mrs. L. B. Fulkert.

The reports of the 25th anniversary convention held recently at Calgary were given by the local delegates. A splendid program of speeches, music, songs, recitations and humorous readings followed.

Several new members were added to the roll. A pleasant social hour followed a bounteous luncheon.

Didsbury Chautauqua Here Nov. 12 to 15

Didsbury is again fortunate in having the winter Chautauqua which this year begins on November 12 in the local opera house.

The first day's program opens in the evening with a popular comedy, "Give and Take," presented by the well known Martin-Erwin Players of Canada.

The McShane Concert Co. composed of four interesting young artists, each an artist of individual attainments, furnish the entertainment for the second afternoon, and also a prelude on the evening of the second day, preceding a lecture by Capt. J. H. Hedley, on "Rambling through the Air," instead of Granville Jones as advertised in the program. Captain Hedley is known as the luckiest man alive; three miles in the air in his plane, when he falls 300 feet, landing safely on the tail of the same machine.

The afternoon program of the second day opens with a concert by the Lucille Elmore Co. Miss Elmore and her company, a group of popular musical entertainers, present a revue that depends for its appeal on cleverness and artistry rather than a smashing sensationalism. The concert consists of individual sketches, monologues, impersonations, songs, instrumental selections, etc. The whole program is wholesome, universally entertaining and appealing. Following the Elmore company's prelude in the afternoon, C. H. Platterling will lecture on "The Old Town in a New World." Dr. Platterling is well known on the Chautauqua platform. He was on the Didsbury program last year when he spoke on "A Modern Tale of Two Cities." The Lucille Elmore Revue will present a unique musical production in the evening.

There is no performance on the afternoon of the fourth day, Nov. 15. Be prepared for the final evening, the climax of four delightful days of education and entertainment. Martin-Erwin Players of Canada in a great Broadway comedy, "Tommy." It is a glimpse into the life of almost any family of today with a daughter of marriageable age. You will recognize and love every character in this great play.

Season tickets may be obtained from any member of the committee. Adults reserved \$2.50, Adults \$2.00, Children \$1.00; tax extra.

Reserved seats may be purchased at Chambers' Drug Store.

ALBERTA HIGHWAYS MARKED BY MOTOR ASSOCIATION

Marking of two thousand miles of automobile roads north of Red Deer has been undertaken by the northern division of the Alberta Motor Association. The southern branch has been working for some time on proper marking of highways in that part of the province, so that next season, with its increased car traffic, should see a large percentage of the main and secondary highways of this province fully marked, something to the lasting credit of the Alberta Motor Association.

In the north much good work has been done by J. A. McNeill, manager of the northern division of the A.M.A. There has been complete marking of the highway from Edmonton to Viking, Wainwright, Chauvin, south to the green trail north of Hayer. Every turn is plainly marked R or L as well as every cross road being marked with a straight ahead sign. The Green highway from Wetaskiwin to Maclelin has been completed as well as the Black trail from Edmonton to Athabasca.

Fred R. Brason has been directing the work of road marking in southern Alberta and splendid results have been obtained there thus far. It is realized that a large percentage of Alberta's tourist traffic enters from the Montana gateways, as well as over the Buffalo-Windermere trail, so that adequate marking of roads in that part of the province is a primary requisite.

LOCAL & GENERAL

Mr. Russell Berscht motored to Calgary on Monday.

Mr. and Mrs. A. B. Claypool spent the week end at the home of Mr. and Mrs. W. J. Scheidt.

A new curling rink is being built at Bowden and preparations are going rapidly ahead for the popular winter sport with the rocks and brooms. The rink is being made alongside the skating rink and will be a two sheet covered surface. Last year Bowden took part in several bonspiels and did so well that it was decided to construct a local rink.

Rexall 1-Cent Sale

OCT. 31 - NOVEMBER 1 and 2

You buy one item at the regular price and then another item of the same kind for ONE CENT.

See our window next week

This week we are giving a 50c Tooth Brush

FREE with 2 tubes of Colgate's Tooth Paste purchased.

Chemist and Druggist

Didsbury, Alberta

CONVOCATION

The fourth annual opening of the Mountain View Bible School will take place at Didsbury, Oct. 29, 30 and 31, in the new M.B.C. Church. The services will commence at 7:30 p.m. on Tuesday and 10:30 a.m., 2:30 and 7:30 p.m. Wednesday and Thursday. Rev. H. B. Luck, Calgary, will be the special speaker. Plan to attend. Bring your friends.

Public Health Lecturer Here Friday, Oct. 25

Dr. F. T. Cook, official lecturer of the Provincial Department of Public Health, will give a lecture in the United Church at 8 p.m., Friday, October 25. Dr. Cook will speak on the general subject of public health. Everybody is invited. No admission will be charged.

Used articles, if still useful, are marketable for cash. Try a "Pioneer" want advt.

Overflow Rally Day Service Ev. Church

The large auditorium of the Didsbury Ev. Church, with a seating capacity of about 400, was filled to overflowing last Sunday evening at the annual Rally Day Service.

After the aisles were all filled with benches and extra chairs, a score or more people had to remain standing in the door way throughout the entire service.

Much favorable comment has been spoken since in appreciation of the fine spiritual tone of the program, which was furnished by a group of young people from the Calgary Prophetic Bible Institute.

In the course of the service the pastor, H. E. Roppel announced the coming of other groups of Young People once a month, for the continuation of these big meetings throughout the winter. This plan has been carried on for over a year under auspices of the local Young People's department of church work, and promises fair for the winter season before us. — Contributed.

ATHLETES AND SCOTS AT BANFF

The newly re-conditioned track and athletic field at Banff is all ready now for the Dominion Track and Field Championships on Labor Day. It is a specially constructed, brick-surfaced, twenty-foot wide, quarter mile track with new grandstand and infield for the Highland sports that will also be featured. Coincident with the sports there will be the Highland Gathering and Scottish Musical Festival, August 30-September 2. Lay-out shows the track and two of the judges of piping and dancing at the Festival. They are (left) Pipe-Major Wm. Ferguson, of North Bay; and Pipe-Sergeant Neil Sutherland, of Regina, winner of three major contests at last year's festival.

Markets For Western Products

The story of the marketing of the grain of the western provinces of Canada is a long, complicated, but exceedingly interesting one. It is a record of one acute problem arising in succession to another as the years passed and conditions both at home and abroad brought about radical but inevitable changes. It is a history filled with heroic efforts, the breaking new trails, the grappling with the seemingly impossible, in the endeavor to solve first one problem and then another, thus removing the difficulties that lay in the path to successful, prosperous, western agriculture.

Twenty-five or thirty years ago the chief cause of complaint was the then existing elevator combine, closely linked with the transportation companies. The passage of the original Canada Grain Act, with its provision of the landing platform, went a long way towards the removal of that grievance.

Then, with rapid increase in settlement and consequent production in the early years of the present century, lack of railway facilities resulting in annually recurring blockades, caused enormous loss to the producers. The great era of railway building largely solved that problem.

The elevator problem, involving questions of grading, dockage, charges for services rendered, depressing of prices, etc., still remained acute. The result was the inauguration of Government-owned and operated elevators in some provinces and farmers' co-operative elevators in Saskatchewan, the creation of the United Grain Growers, and constant revision and amendment of the Canada Grain Act.

Following the war, and the enormous increase in acreage brought under cultivation by the Greater Production campaigns, coupled with the complete demoralization of world trade, falling prices, and lack of credit and buying power in Europe, and, in particular, the abandonment of the wartime Wheat Board, western grain growers found themselves in a serious predicament, faced with prices barely equivalent to, even below, the cost of production. With courage and unsurpassed initiative western farmers grappled with the problem and worked out their own salvation through the organization of their great Wheat Pools.

Conditions improved, marketing became more scientific, prices somewhat more stabilized. Then came the crop of 1928, the largest in volume in the history of the west, but, owing to climatic conditions, one of poor quality. Within two years, too, the "combine" and the motor truck had come very largely into use, with the result that the grain poured into the elevators not only in unprecedented volume, but with unprecedented rapidity. The building of good market roads likewise served to speed up deliveries.

The net result was a situation which, while providing employment for a huge army of harvesters, and an enormous volume of traffic for the transportation companies, left little margin of profit for the grower of the grain. Complaint was almost universal against the Board of Grain Commissioners, it being very generally felt that it was "asleep at the switch," and had not made even reasonable efforts to cope with the situation which had developed. The old Board was replaced by a new one which has the confidence of the farmers and from which better things are expected.

Beneficial as the operations of the Pools have been, there has been developed in some quarters, and notably in Saskatchewan, a feeling that the maximum benefits to be derived from united selling cannot be realized until every bushel of wheat grown in Canada is marketed through one agency, namely, the Pools, and that, human nature being what it is, this cannot be secured through wholly voluntary efforts, and consequently the minority should be compelled by legislation to throw in their lot with the majority and made to deliver their wheat to the Pools.

While this agitation is being carried on, a new situation has developed. Owing to a large carry over from the 1928 crop, and the rapid harvesting and delivery to the elevators of this year's crop, and with a manifest reluctance on the part of European buyers to purchase Canadian wheat at a price commensurate with its value and production cost, there is practically no movement of grain out of Canada at the present time. The result is that all forms of storage in this country are, at the time of writing, almost filled up, and embargoes on shipments in effect.

The situation is believed to be only a temporary one, and that, as soon as other wheat exporting countries, now selling below the price which Canada demands, are out of the market, there will be a call for Canadian wheat and a price obtainable acceptable to the Canadian producer.

However, with the steadily increasing size of the Canadian wheat crop, and increases in other countries as well, western farmers must inevitably take a keener interest than ever before in the whole subject of finding and developing export markets for Canadian products. The possibilities of the awakening Orient call for close investigation and expert study. Such subjects as the effect of Canada's Government-owned merchant marine, operated at a loss, in opening and developing new markets require careful consideration as to whether the direct operating loss is not more than offset in national gains and profit through the development of export trade.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

London Suffers From Drought

According To Records, Condition worst In Seventy-One Years

London is experiencing the worst drought on record in 71 years, a 32-day lack of substantial rainfall eclipsing the dry period of the summer. The Lea River, supplying a considerable area of eastern and northeastern London, is beginning to fall, causing acute anxiety.

Garden watering from hoses or outside taps was stopped by the authorities several months ago and the special assessment levied for this service will be reduced by half at the next date of payment, the water board promises.

ST. VITUS DANCE

A Disease Of the Nerves Which Must Be Treated Through the Blood

St. Vitus Dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble to be successful is through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe forms of this trouble, because they enrich the blood supply, thus carrying the necessary food to the nerves. In proof of the value of Dr. Williams' Pink Pills in cases of this kind we have the statement of Mrs. William Stead, Wilton, Ont., who says: "My eldest girl at the age of nine years suffered from an attack of whooping cough which left her very weak, and finally developed into a severe attack of St. Vitus Dance. She was under a doctor's care, but with no beneficial results. We also tried other treatment, but with no better results. To make matters worse, she was taken down with measles. Again the doctor was called in, as she became so weak, and her limbs so trembly that we had to take her about in a little hand wagon. I thought a change of air and scene might help her, so we sent her by boat to Port McNicol, a distance of about a hundred miles. She seemed to improve while there, but as soon as she came home her strength was gone again. I took her to another doctor, but with no better results. I was distracted to see how helpless she was becoming, so decided to give Dr. Williams' Pink Pills a trial. I got six boxes, and they did what neither doctors nor other remedies had even started to do. They built her up completely; the St. Vitus Dance disappeared, she has no sign of weakness and can run and play with the other girls, a thing she could not even try to do for about eighteen months. She walks to and from school, a distance of about a mile, which, of course, is proof of her present good health. I have much to praise Dr. Williams' Pink Pills for, and always recommend them in all cases of weakness."

You can get these pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Use Of Combines

More reaper-thresher combines have been in operation in the Brandon district this year than ever before, despite short grain crops.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

Going To Brandon

Dr. Buckley Is New Agrostologist At Dominion Experimental Farm

Dr. G. F. H. Buckley has recently been appointed to the position of agrostologist at the Dominion Experimental Farm, Brandon. Dr. Buckley was born in Halifax, N.S. He received his Bachelor of Science degree from the University of Alberta in 1920. On his return to Edmonton he became assistant professor of field husbandry, having special charge of the field experimentation. At the Brandon farm Dr. Buckley will continue the corn breeding investigations which were commenced in 1925. This work is being carried on with a view to developing a cold-resistant, early maturing variety of corn that will give good yields for fodder and silage.

A Wonderful Machine

Transforms Music Into Ribbon Of Light And Responds To Every Change

Music was transformed into a ribbon of light and made to write its soul characteristics on a cloth screen at Steinway Hall, New York.

When low, pure tones were sounded the strip rippled smoothly like wave motion travelling along a rope, but when harsh, discordant sounds were made, the shining line writhed and contorted like an agitated snake. For all graduating of harmony the line showed distinctive waves, different for each sound, even down to discrepancies in tone too fine for the ear.

The instrument is a development of the Osiso, which has been used for some time to photograph voice and music characteristics. The new device substitutes a moving picture for a "still." It is a mirror, vibrating under control of an electrical current from a microphone that picks up the sounds to be pictured. This mirror reflects a beam of light through revolving mirrors. It was developed by William Baird White, acoustic engineer of the American Steel & Wire Co., and C. Anderson, engineer of the Westinghouse Electric & Engineering Co.

Music students are given a pattern of a perfect sound and attempt to reproduce it in the light

"It seems certain," said Mr. White, "that improvement can be attained in this way, but it also seems certain that no amount of effort will transform a good clerk into a great artist, for one of the things demonstrated is that each artist produces patterns as individual as his signature, and although others may be able to imitate these patterns fairly well, apparently no one else can reproduce them exactly."

The Osiso is designed to calibrate the harmony of musical instruments, and detect imperfections, whether in tones from wires or strings, or reverberations of sounding boards. Mr. White said that it is found sounding boards sometimes reverberate better at some points in the scale than others.

Some gourds weigh as much as 30 pounds.

Delegation Sails For Japan

Party Has Gone To Tokio For Preliminary Conference

Just what will loom up as the chief subject for consideration at the forthcoming meeting of the Institute of Pacific Relations at Kyoto, Japan, cannot be known until preliminary discussions are held, said Lord Hailsham, on his arrival at Ottawa. Lord Hailsham heads the British delegation, several members of which spent a few days as guests of Their Excellencies the Governor-General and Lady Willingdon, before proceeding west to Vancouver. They sailed for Japan on October 3.

Woman Aviator Killed

Miss Josephine Callahan, armless woman flyer, was killed when an unlicensed plane she was piloting crashed in a cotton field near Abilene, Texas. Miss Callahan, said to have been armless since birth, had a special arrangement on the control stick for handling the plane with artificial arms.

The right way to redye Finest Silks

TEXTILE manufacturers always use special dyes for silk or wool. They know that is the only way to secure the most perfect results. The makers of Diamond Dyes are the first to enable home users to follow this plan.

Next time you want to dye some of your more valuable articles of pure silk or wool, try the special Diamond Dyes in the blue package. They will give these materials clearer, more brilliant colors, with greater depth and permanence than any "all purpose" dye.

These special Diamond Dyes are just as easy to use as ordinary dyes. Like the white package Diamond Dyes, they contain the highest quality anilines money can buy. That's what

makes them go on so smoothly and evenly, without spotting or streaking. That's the secret of their brilliance; their resistance to sunlight, wear, and washing.

The white package of Diamond Dyes is the highest quality dye prepared for general use. It will dye, or tint, silk, wool, cotton, linen, rayon (artificial silk), or any mixture of materials. The blue package is a special dye for silk or wool only—with it you can dye your valuable articles of pure silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk or wool. Your dealer has both packages.

Diamond Dyes

Sun Proof

EASY TO USE—BETTER RESULTS

Diamond Dyes contain the highest quality anilines money can buy. And it is the life of that count. They are the life of dyes; the source of their rich colors; brilliance and permanence.

World's Grain Exhibition To Be Outstanding Event In The History Of Canada

The World's Grain Exhibition and conference to be held in Regina in 1932 promises to be the greatest international event ever staged in the Dominion of Canada. Invitations are being given world-wide distribution, and it is anticipated between fifty and sixty countries will be represented.

The year 1932 also marks the fiftieth anniversary of the settling of that part of the prairies which now constitutes Saskatchewan, which makes it a fitting time to hold such a world-wide event.

The Federal Minister of Agriculture, Hon. W. R. Motherwell, is chairman of the general committee, and through his good offices the Federal Government at its last session voted an initial grant of \$1,000,000 in order to allow the committee to proceed with the preliminary work. This is being directed by J. A. Mooney, the manager, and D. T. Elderkin, the secretary. The temporary services have also been secured of Ernest Rhoades of the Federal Department of Agriculture, at Ottawa, whose experience as secretary of the World's Poultry Congress held at Ottawa, in 1927, will be extremely valuable in getting this new world event off to a good start.

Steps are now being taken to prepare an announcement and prize list for world-wide distribution. This publication will be unique in that it will contain a list of the most valuable prizes ever offered for any agricultural products. One example of this is the class for hard red spring wheat which carries a first prize of \$2,500 and fifty other prizes ranging down to fifty dollars. Total prizes will amount well over \$200,000.

Included in the competitive classes are wheat, oats, barley, corn, rye, buckwheat, rice, millet, field peas, field beans, and the seed of flax, hemp, alfalfa or lucerne, red, alsike, sweet and white Dutch clover; the grasses, timothy, brome, red top, bent, Kentucky blue, Canadian blue, the Fescues and the Agropyron species; sunflower, field roots and garden vegetable seeds.

Such a prize list provides classes for every province in the Dominion and for a great many other countries.

The competitive classes, international, national and provincial educational exhibits, and commercial displays may be termed the spectacular side of the event. There is the other side from which Canada hopes to gain much, and that is the conference.

Thousands of research workers along grain and seed lines are busy in all parts of the world attempting to solve the problems incidental to the production and marketing of these products. In 1932 Canada will be the mecca for these experts, and the farmer will be able to hear and question these men, and it is hoped learn the solution of many of the problems with which he is now confronted. Everything will be discussed from soils to markets, plant disease and insect pests, and farm machinery.

Grain from this year's crop may be the winning entry, and it behooves the grower and prospective exhibitor to commence his selecting at once. The selection for seed for the 1930 and 1931 crop is also a point which growers would do well to keep before them, with the possibility of entries in the World's Grain Exhibition always in view.

He who knows only his own side of the case, knows little of that.

Advices Zones For Campers

Superintendent Of Prince Albert National Park Would Please All Types

J. A. Wood, superintendent of Prince Albert National Park, speaking before the Board of Trade Executive, at Saskatoon, advised dividing of the park into zones in an endeavor to please all types of campers.

In the southern areas, containing Lake Waskesiu, he would have grounds suitable for cottages and tents for those who desire conveniences of many descriptions and have a distaste for tenting.

In a central area there would be ground for "semi-campers." These would provide tenting accommodation but include modern conveniences.

For those who prefer real camping, canoe trips and portages, the northern area would be reserved. Those who used this section would be what Mr. Wood termed "100 per cent. campers."

He believed the area unique in that within its boundaries was a tableland which was really in the centre of the province.

Fish were in abundance and during the commercial fishing years of 1920 to 1926, the annual official catch amounted to about 60,000 pounds. To this could be added at least 25 per cent.

Winnipeg Newspaper Union

MILITARY CAPE COAT

The cape theme so smart in grown-up styles has entered the junior mode in military cape coat. Illustrated in navy blue homespun it is quite the most fashionable and practical idea of the moment for girls of 8, 8, 10, 12 and 14 years. The turn-over military collar is joined to a band that fits snugly about the neck. A huge brass button at neck and one at waistline holds the garment closed, and adds decorative note. A stitched belt defines waistline. Style No. 604 is made at big saving. In the 8-year size, to copy it exactly, it takes but 2 yards of 54-inch material with 2½ yards of 35-inch lining. Lacquer-red suede finished woollen, tweed in reddish-brown tones, bottle green velvet, almond green wool velour, and brown and beige checked woollen are ultra-new and chic for this attractive cape coat. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Another Titled Rancher

Former Russian Prince Is Raising Muskrats In Alberta

Alberta has added one more to her list of titled ranchers. This time it is a Russian prince, remotely related to the defunct royal family through an alliance in the days of Peter the Great, but of recent years more or less a wanderer on the face of the earth in a search for a happy home where Bolsheviks cease from troubling and princelings are at rest.

Prince Leo Galtzine, twenty-five years old and married just about a year, is this latest royal rancher. He has bought over 400 acres of land on the McLeod River, five miles south of Edson, right in the heart of the big game country, and there he is going to raise muskrats!

On the land there is a lake which covers 150 acres, and this is to be the habitat of the colony of muskrats the prince plans to develop. There are already a few hundred furry rodents on the place, but a much larger number will have to be introduced to make the ranch a paying proposition. The lake is to be enclosed with three miles of wire fencing at a cost of \$2,000.

Much of the farm work is to be done by the prince himself, though he will have a manager and a few helpers. He has studied fur farming intensively and has a number of theories that he intends to put to the test of practice, these having been endorsed by the professors of agriculture of Louvain University, where he studied for some years. It is not expected, however, that the rat ranch will pay dividends until about 1932.

Airplane Shipments

Comprise Many Things

Great Banking Firms Use Service For Sending Bullion

Even crooks are finding the aeroplane useful. An amazing case of gambling machines, for use at Deauville, being smuggled by aeroplane into France recently came to light. The machines were made in England, and it is alleged that they were taken to France by an English airman, who smuggled them through the Customs at Le Bourget, and sent them to Deauville by motor cars.

Perhaps the most striking of all tributes to the business value and dependability of the aeroplane is to be found in the fact that great banking firms now send cargoes of bullion by air almost every day. The "bullion aeroplane" with its precious cargo in charge of an armed guard, is an established feature air traffic.

A man has been sent as cargo in a goods aeroplane. Missing the last passenger machine, he noticed a cargo plane ready for flight. The goods were labelled with the name of the town to which he wished to go, so he had himself packed up and labelled and put in with the rest of the cargo. The aeroplane reached its destination, and the man, having paid the freight charges on himself, was duly delivered.

Mistress: "But why should you wish to leave after being in my service for 45 years?"

Maid: "Well, ma'am, I don't want to get into a rut."

Honor Canadian Pacific Men

Life-saving certificates of the Royal Canadian Humane Society were recently presented at Port McNicoll by Hon. Wm. Finlayson, Ontario Minister of Lands and Forests, to Car Inspector Alex. McCullagh, No. 1; Constable Harry Gyves, No. 2, and Chief Clerk J. A. Davidson, No. 3, all Canadian Pacific employees stationed at Port McNicoll, who last March rescued from drowning Mrs. Geaudraut, her 3-year-old daughter and Margaret Swales, who were crossing the lake from Victoria Harbor to Port McNicoll, when the ice gave way. In making the presentations Mr. Finlayson stressed the point that railroad men were at all times cool and collected at a crisis.

Growth Of Juvenile Immigration From Britain Is Satisfactory To Colonization Officials

Results Of Tree Planting

Success Of Work On Prairies Is Very Apparent

Advent of a dry season this year calls fresh attention to the work being done by the Forest Service of the Department of the Interior, in distributing free trees to prairie farmers. Approximately 8,000,000 seedlings and cuttings are now being sent out annually, and travellers in the western provinces can see for themselves the success of the work. Not all or nearly all of the annual distribution results in actual forestation. But a good percentage of the seedlings, when carefully planted and tended, grow into trees which not only beautify the plains but serve also a most useful purpose. Forests have the effect of moderately reducing the temperature of air and soil, and render the climate more equable. They increase the humidity of the air and reduce evaporation. They tend to increase precipitation of moisture, though this tendency is not great on the plains. They help to regulate water supply, making stream flows more continuous. They also provide shelter for man and beast alike, a consideration not to be neglected on the windy prairies.

This is not to say that the widespread planting of trees will abolish all fears of prairie drought. But trees will do a little towards increasing rainfall, and will do much towards conserving moisture in the soil. For this reason, quite apart from aesthetic grounds, the government must be congratulated on its work, and the farmers encouraged to avail themselves of the free service offered.—Manitoba Free Press.

Sage Brush As Feed

Those Of Western Plains Superior To Many Of The Grasses

Analyses made by the Dominion Chemist at Ottawa, show that a number of the sage brushes of the western plains possess fair percentages of protein, especially in the younger plants. In this respect they are superior to many of the grasses. According to authorities, many species of sage brush are forage plants of considerable value, especially for sheep. One author states "whole bands of sheep will leave all other forage and feed on sage-brush for a day or two at a time; after that they may not touch it for days or even weeks."

White Blackberries

A Georgia gardener two years ago, found a white blackberry bush in the woods. He took a cutting from it and succeeded in cultivating white blackberries, the latest horticultural freak. The white berry tastes the same as the black, but it has not yet been determined whether the bushes will be fertile.

Eighty sled dogs were taken by Commander Byrd on his Antarctic expedition.

Plans for considerably increasing the flow of suitable British settlers to Canada were discussed at the annual conference of officials of the Colonization Department of the Canadian National Railways, which was held at the headquarters offices in Montreal, recently.

The chief matter under discussion at the conference is British immigration. Satisfaction was expressed at the considerable increase shown in this class of settlement this year over the previous season, and plans were discussed which are calculated not only to bring out a greater number of Britishers suitable for land settlement, but also to improve still further the conditions under which they are being settled.

Dr. Black reported having had an interesting conference with Rt. Hon. J. H. Thomas, during his visit to Montreal. The growth of juvenile immigration from Britain and the manner in which the young lads who have come out to farms are making good, was one of the matters furnishing considerable satisfaction at the conference. R. M. Pym, superintendent of juvenile immigration for the railways, reported that since arriving in Canada, he had been able to visit some of the boys who had come out this year and was greatly pleased at the progress they were making and with the good class of homes on which the boys were placed. He had been impressed with the work such organizations as the Rotary Clubs were doing in taking a brotherly interest in the British boys who have been placed on farms.

Increases Egg Production

Experiments Show Advantage Of Open Windows In Poultry House

Experiments at the University of Wisconsin show that the opening of the windows of the poultry house is nearly as effective as exposing hens to the ultra-violet rays of a quartz mercury lamp or feeding them cod-liver oil. The tests were supervised by E. B. Hart and J. G. Halpin, heads of the Agricultural Chemistry and Poultry Husbandry Departments, respectively.

Eight pens of pullets, consisting of 35 birds each, were used to compare different methods of keeping the flock from October to the end of April. A total of 2,337 eggs was laid during the seven-month period by the pullets kept in houses where the windows were kept closed. The production was raised to 3,261 eggs when the birds were treated daily with the quartz mercury lamp. A third pen which was both irradiated and exposed to the sun made the highest record, its production being 3,269 eggs.

A New Fish Story

A genie dwells in the salmon runs of the Fraser River. Four men from New Westminster, were shooting down the fast currents in a boat recently, tired and discouraged, for what had started out as a happy hunting and fishing trip, and yielded them naught but bad tempers. There was a swish of water and something glistening shot over the boat's gunwale two and a half feet above the water. It fell at their feet, flopping desperately. Twelve pounds it weighed, a salmon.

Professor: "I have succeeded in making many animals understand me, but never the leech."

Assistant: "Try talking American to them."—Il Travaso, Rome.

SQUARE DEAL FOR TOURISTS

Alberta is right in emphasizing the need of good highways, but something that is also of special importance is a square deal for tourists. Let it be widely known that the people of this province are disposed to give every possible consideration to visitors, assuring them of fair prices and courteous services, and it will be an asset the value of which cannot be fully estimated.

Some bad roads can be looked upon as a temporary condition. And it is frequently the case that what was a good highway one year is among the best next year.

But those who have the responsibility of dealing with tourists are largely permanent residents. The manner in which they greet the newcomers, attend to their needs and render assistance in any way, is indelibly recorded on the memories of these motorists. When a service is free it is praised and talked about no matter where the driver and his family go.

Alberta is making an effort to obtain its share of the tourist business in sight for the west. Its goal can be brought all the nearer by motor tourists being given every possible consideration, either at auto camps, stopping places or hotels, thus multiplying the number of boosters for this province. The right welcome spirit has been shown in the past but tourist business must be accorded a more important place for the future.

TOO MANY LAWS

The Alberta legislature makes many laws and introduce amendments to other laws, that make it rather difficult for the average man to keep in touch with the multitude of restrictions placed upon the statute books. Not long ago auto drivers' licenses were added to the list, and there are probably many people who are not aware of such a law. Threshers' licenses must be secured, shooting licenses must be paid for, and the farmer cannot even sell eggs direct to the consumer without infringing an Alberta law. It looks as if we are tremendously burdened with laws and restrictions that make it difficult to live a law-abiding life. However, with these laws included in our statute books, why does not the government appraise the people of their laws by publishing a synopsis of same in the country newspapers. Instead, they engage a bunch of hangers-on to go out and "get" the man who infringes the law, and besides the license fees they add to that the costs of fines, etc.

Remember there are only 50 more shopping days before Christmas. Do your shopping early.

Mr. and Mrs. W. A. Teskey were visitors to Olds on Sunday at the home of Mr. and Mrs. H. E. Branscombe.

A dance will be held in the Lone Pine Hall on Friday, Nov. 1, under the auspices of the hall board. Bellamy's orchestra.

A by-law submitted to the Olds' ratepayers on Saturday to empower the town council to borrow \$10,000 to build a covered rink, was carried with a large majority, 138-18.

LOCAL & GENERAL

Roger Barrett unloaded a carload of the latest model Fords Monday.

Mrs. J. Boorman was a visitor to Olds on Saturday at the home of her parents, Mr. and Mrs. W. Stock.

Mr. and Mrs. J. W. Phillipson accompanied by Mr. and Mrs. Allen Hunsperger motored to Calgary, Friday last.

Miss Vera Dawson has resumed her duties on the teaching staff of the public school after a two months' illness and convalescence.

Don't forget the whist drive and dance tonight under the auspices of the Curling club, 8 o'clock sharp. Everybody welcome.

Twelve members of the local Eastern Star chapter paid a fraternal visit to the Innisfail lodge on Wednesday, October 16th.

Keep the evening of November 8th open for the L.O.D.E. masquerade dance in the Opera House, Bone's (Red Deer) orchestra. Novelty dances; prizes. Admission 75c person, supper included. Costumes may be obtained from Mrs. Fookes. 42-4c

WHAT OTHER EDITORS ARE SAYING**GIVE US BETTER ROADS**

There is much read these days with regards to our provincial highways and the necessity for better roads. The gravel used today is apparently too coarse and this loose gravel is no doubt responsible for numerous accidents and the breaking of innumerable window shields as well as plate-glass windows in villages and towns. There is a piece of road out of Cardston that is the best to be seen and it is unfortunate that the entire provincial highway could not be constructed and finished similarly. The gravel is said to be finely crushed rock and a heavy roller was run over the road which embedded the crushed rock in the road bed, making a splendid surface.—Vulcan Advocate.

Mr. and Mrs. A. R. Kendrick and son Murray motored to Calgary over the week end.

Mr. Bob Munson motored up from Vulcan last week end and is spending a few days with Mr. Gene Axtell.

Faster gayer, more daring than ever—youth's wayward flight—at the movies in "The Jazz Age," Wednesday, Oct. 30, with Douglas Fairbanks, Jr. and Marceline Day.

A dramatic and thrilling story of the mystery of the Orient, "Streets of Shanghai," at the movies, Didsbury, Saturday, October 26.

The play and dance to be staged by the Melvin Go-Getters advertised for Nov. 15, has been changed to Friday, Nov. 22, owing to the Didsbury Chautauqua also falling on the former date.

Mr. W. Axtell and his uncle, Mr. Moore, returned to Didsbury on Monday evening after spending two weeks in the Peace River country where they have filed homesteads.

Mr. and Mrs. George Summers announce the engagement of their daughter Agnes to Mr. Clarence Bolton, youngest son of Mr. and Mrs. William Bolton, of Milner, B.C., the marriage to take place at the Pro-Cathedral, Calgary, October 29th.

On Monday evening, October 14, the Grand Worthy Matron of Alberta, Miss Mamie Gibson of Lethbridge paid an official visit to the local Eastern Star Chapter. About 75 members were present, including visitors from Innisfail, Carstairs and Calgary. After work a short program was followed by refreshments.

His Excellency, Viscount Willingdon, Governor-General of Canada, has donated bronze medals for competition in the public school leaving examinations. A medal is awarded the candidate taking the highest aggregate in each inspectorate. The winner this year in the Olds inspectorate was Louise Peters, a student at the Poplar Creek school, and a pupil of Miss E. B. Krause.

Artists in British-Canadian Concerts

Florence Hood

Mary Frances James

Stanley Maxted

Rudolph Plamondon

Hart House Quartette

Brilliant entertainers are to be heard this fall and winter in a nationwide chain of musical centres throughout the Dominion, sponsored by the Canadian Pacific Railway. They will appear in a series of six concerts, the outgrowth of the Music Festivals, now internationally known, which have been staged by the Music Department of the railway. Each of these concerts will be given at Toronto, Winnipeg,

Regina, Calgary, Vancouver and Victoria with a probability of other cities being added to the list. Among those now taking part in these concerts will be Florence Hood, brilliant Canadian violinist; Mary Frances James, lyric soprano of Montreal; Stanley Maxted, Montreal tenor; Rudolph Plamondon, Canadian-born star of the Paris Opera; and the Hart House Quartette, internationally famous as players of Chamber Music.

TUXIS BOYS ENJOY A COUNTRY HIKE

On Tuesday evening the Tuxis Boys had a hike out to the third coulee, southeast of town, where they held their regular mid-week meeting around the camp fire.

After a great feed of hot dogs, cookies, coffee, apples, bananas and peanuts, the square held their devotional period, during which they discussed the question of Sunday observance. The Pastor, Ormond Phillipson, then gave a talk on the meaning of the words on the Tuxis Boys' crest.

Seventeen were present, including Mr. Reeves, the high school principal, a welcomed visitor. Everyone had a good time.

ROD AND GUN

Featured in the November issue of Rod and Gun and Canadian Silver Fox News, Canada's national outdoor life magazine, which is just to hand, are some splendid and seasonable yarns of hunting in various parts of the Dominion. The noted western hunter, A. Bryon Williams, recently re-appointed chief game warden of British Columbia, returns to the pages of the magazine commencing another of his popular series of hunting experiences.

His article, however, is merely one of many dealing with angles of outdoor life and fishing and hunting interests, while the silver fox department is an extensive section filled with timely articles regarding the industry.

Mr. and Mrs. Harpold and Mr. and Mrs. W. J. Seidelt spent a few days at Edmonton last week.

Mr. Dave Edwards left on Thursday of last week for a visit to Toronto.

"Contract awarded to the lowest bidder—"

WHEN a corporation wishes to build a factory—when a city constructs a new subway—whenver a large undertaking of that nature is planned, the first step is almost invariably a request for bids on the work. This practice of competitive bidding has saved millions of dollars. It assures the city or corporation of getting the best value for every dollar spent.

The same system can be applied to your own buying. And you can save a proportionate amount of money. How? Simply by consulting the advertising pages of this paper.

When you find yourself in need of a washing machine, a new furnace, a new hat, a pair of shoes, a new suit—anything, don't rush out and buy the first one offered you. Exercise the power of selection that the advertisements give you. Read about each one—what it will do, what it costs. Then, when you find the one that best suits your needs and pocketbook, buy it! In this way you'll be spending your money wisely. You'll know what you're getting and how much it costs—before you buy it.

Every advertisement is the bid of some merchant for your trade—consider them carefully before buying

Chinese Massacre Moslems

Three Thousand Slain Because They Rebelled Against Authorities

Reports from Central Kansu province stated that Chinese had executed an appalling massacre of Moslems there, the victims numbering at least 3,000. Details were lacking, but it seems the Moslems rebelled against Chinese authorities, whereupon they were slain.

According to reports, the executions were carried out under guise of a conference with the Moslems. The victims were separated from their wives and then put to death. According to the reports the Moslems died stoically.

It is indicated that the Chinese now fear Moslem retaliations, possibly causing renewed civil war, which in 1918 caused the death of many thousands of Chinese and Moslems in Kansu.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lighthall, Milford, Ont., writes:—"I became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach."

"I purchased a bottle of D'FOWLER'S EXT-RAC OF WILD STRAWBERRY and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise 'The Extract' too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowler's" has been on the market for the past 84 years; you don't experiment when you buy it. Price 50 cents a bottle at all dealers; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Took Year To Cool

Mirror For Telescope Weighs Ton and a Half

A huge mirror which took nearly a year to cool down has been made in America for a large reflecting telescope. Weighing more than a ton and a half, it is 60 inches in diameter and 10 inches thick. Discs of glass of this great size are very difficult to get free from defects, and after the molten glass is poured into the mould it has to be kept hot by electric heaters and cooled down over a period of many months.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Eclectic Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

A new map of Ireland with names in Gaelic instead of English hangs in every schoolroom of the Free State as part of an effort to restore general usage of ancient Irish speech.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Only One Bachelor King

England has had only one king who grew to manhood and who never married. That was William Rufus, or William II., son and successor of William the Conqueror. Edward V. and Edward VI. were never married, but they died before they reached their majority.

Minard's Liniment for Neuritis.

History In Narrative

"Pages From Canada's Story" Of Particular Interest To Pupils In Western Schools

"Pages from Canada's Story," by Helen Palk, is bound to be a considerable aid to students of history, particularly to those in our public schools round the age of eleven. Homeopaths claim that their formula and method of taking medicine is more advantageous to patients than the prescriptions of allopathists, and Miss Palk can certainly claim that placing before pupils of schools, in Canada, outstanding events in the history of Canada in narrative form will create a more lasting impression upon their minds. A great Frenchman, Rousseau, stated that "the book which, to my thinking is the happiest treatise on natural education is 'Robinson Crusoe,'" and it is apparent that the author of this little book realized that children will absorb those incidents connected with the vital events of our country's history, simple portrayals of character, and graphic descriptions of locations, more easily than a precise chronology of events, wearisome through sameness, tedious in its attempts at analysis and redundancy of phraseology.

In these word pictures, the authoress has successfully endeavored to place the essential facts clearly before the eyes of the reader, which instantly photographs them upon the mind, thus aiding the memorising of them.

Extreme care has been taken in choosing the most vital and colorful events which appeal to the imagination of the child, and this without diverging from the truth, but as it has been written particularly in the interest of pupils in Western schools the story of Western development receives more descriptiveness.

The authoress has studiously avoided redundancy of phrasing, the use of hard words, and verbosity, all of which will be to the benefit of the children for whom it is written. It is not written for the historian or erudite person as is readily seen from the sketchy character of constitutional changes.

Its main educative feature lays in the vivid descriptions of early pioneer life. The dangers, struggles and tragedies of the pioneers who laid the foundation of this great nation, which cannot be too emphasized, as we are all prone to ignore the sacrifices and terrible experience of those who "built better than they wot of." To forget that but for their supreme daring, patient endurance and superb courage the conditions which prevail today, to say nothing of the retention of the country, would not have been attained.

Miss Palk has produced something better than a text book, she has produced a record of outstanding annals which will inevitably appeal to the scholars in our schools and prove both an incentive and fundamental ground for a more exhaustive study of Canadian history, and after all the greatest principle in education is to credit a desire for knowledge, to rear the tender thought and pour fresh instruction over the mind.

The avoidance of dates and tedious details is more of an advantage than otherwise. By taking periods instead of years, the authoress has been able to fix the main features of transpiring events and the chief characteristics of the participants in them more surely in the minds of children. By so doing she has reached the happy height of appealing to the sympathy and understanding of her readers, which of necessity must fill them with pride of ancestral triumphs and achievement, and incidentally a glow of patriotism. Who shall say that some of the children for whom the book is written may not be stung with some thought whose splendour may impel them to prove as great, if not more heroic, than those characters whom the authoress has depicted with a sure pen and clarity of insight.

Great thought and intense feeling come like instincts unawares to those who rise above mediocrity. Yes, certainly Miss Palk has given to the schools something more than a few pages from Canadian history, something more than a text book, a compilation of the most inspiring incidents in Canada's annals, vivid character sketches which impinge themselves upon the youthful mind, and best of all a well spring from which her readers can draw inspiration.

The book is splendidly illustrated, and as pictures not only have a great appeal to the young, but are longest remembered, they will materially help forward the objective of the authoress.

Making Highway Safer

Manitoba Man Invents Spreader To Eliminate Loose Gravel Menace

Gravel, remaining loose at the side of the highways, seems to have been one of the main troubles with which those responsible for road programs on the prairie have had to deal with during the past two seasons. Many methods have been used to try and overcome this state of affairs, but to date nothing practical has been brought to light.

A suggestion, however, has presented itself in a new gravel spreader, as designed by W. G. Smith, of Rosburn, Man., which was demonstrated recently on the Emerson Highway. The demonstration revealed that the job could be done with the minimum of trouble and expense.

The new system is that of running a four foot wide strip of gravel down the centre of the highway, eliminating excess gravel on the two sides. This gravel is laid down in a perfectly smooth ribbon, and if necessary a car can easily cross it.

The chief advantage in this system would be to eliminate the loose gravel at the sides, where the greatest danger to motorists lies at the present time. On hitting this loose gravel when travelling at a fair rate of speed, it is very easy to hurtle into the ditch before the driver can gain control of his car.

The new system would also eliminate the error so many practice—that of driving on the wrong side of the road, as the centre line would automatically keep the drivers on their own side of the road.

This centre line of gravel would of course have to be put a few inches in depth, with a flat top, so that it would not be dangerous for cars to cross it.

Destroying Mountain Flower

Edelweiss Threatened With Extinction Due To Ravages Of Tourists

Edelweiss, the famous Swiss mountain flower, is threatened with extinction due chiefly to the ravages of tourists.

Several Alpine regions where the plant formerly flourished have reported that it is now very rare. Edelweiss does not spread rapidly even under normal conditions.

A Bavarian botanist estimated recently that in a certain mountain area, there were 26,000 roots of Edelweiss, in 1920. At the end of 1928 he said, only 600 remained.

Religion makes a mighty poor shroud after it has been worn as a cloak.

Minard's Liniment for Warts.

One kind of enemy is a friend who does not oppose you when you are wrong.

Breaks Up Gas In the Stomach

Don't suffer from dangerous gas pressing around your heart, from sourness, acidity, bloating or pain of indigestion. Stop worrying. Whenever you need quick stomach relief take a little Bismarck Magnesia—powder or tablets. It breaks up gas, neutralizes acids and keeps the stomach sweet and strong, and digestion perfect. At all good drug stores.

Permanent Civil Servants

1,900 Employees Of Federal Government Attain New Status

With the passing of an order-in-council, which has an important bearing on the pensions branch of the Department of Pensions and National Health, 1,900 employees in this branch become permanent civil servants. It dates from June 1. The pensions branch of the department has now been made permanent, and the civil service commission has classified the employees engaged in this work.

About 450 government employees in Ottawa are directly affected by the change; about 450 in Toronto, 250 in London, Ont.; 155 in Vancouver, 84 in Winnipeg, 72 in Calgary, and smaller numbers in other Canadian cities where the department operates hospitals for disabled veterans.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never as they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

A power site of more than 20,000 horsepower has been discovered in the Tongass National Forest in southeastern Alaska.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

Eighteen years were required to make huge gates of Henry VIII's Chapel in Westminster Abbey.

From Youth to Age

There are three trying periods in a woman's life: when the girl matures to womanhood, when a woman gives birth to her first child, when a woman reaches middle age. At these times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

AND TORONTO, CANADA

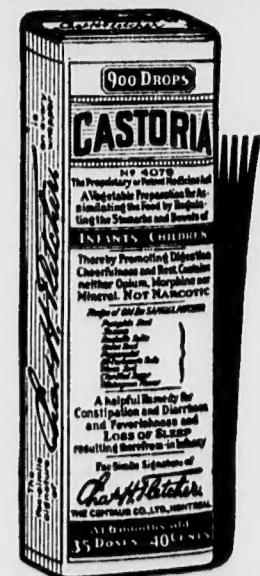

Gave Police the "Jumps"

What was thought to be a "time bomb," opened in haste by post-office employees at Ranger, Texas, was found to be a quantity of Mexican jumping beans bumping against the tin lid of their container.

When Babies CRY

Babies will cry, often for no apparent reason. You may not know what's wrong, but you can always give Castoria. This soon has your little one comforted; if not, you should call a doctor. Don't experiment with medicines intended for the stronger systems of adults! Most of those little upsets are soon soothed away by a little of this pleasant-tasting, gentle-acting children's remedy that children like.

It may be the stomach, or may be the little bowels. Or in the case of older children, a sluggish, constipated condition. Castoria is still

the thing to give. It is almost certain to clear up any minor ailment, and could by no possibility do the youngest child the slightest harm. So it's the first thing to think of when a child has a coated tongue; won't play, can't sleep, is fretful or out of sorts. Get the genuine; it always has Chas. H. Fletcher's signature on the package.

Packed in vacuum tins to preserve aroma and flavour. Get a tin and try it.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and Perry begs her to leave Al. One night, after Al has taken Molly home from the Club Bombo, where he is part owner, she turns on him in rage, saying she doesn't love him. Al believes it is a mood, but when Molly fails to appear at the Club Bombo New Year's Eve celebration he calls her. A feminine voice answers, but he cannot hear the words, as the 'phone door flies open.

CHAPTER XVI.

Once more Al seized the door of the 'phone booth and slammed it hard—to stay shut this time. Then he turned back to the 'phone. He suddenly decided that he must make things up with Molly now—he would cast all pride aside and frankly beg her to do it.

"Sweetheart," he pleaded, "let's start the new year right. If there's anything I've done, I'm sorry. Let's make up."

There was a long silence, then the faint murmur of a feminine voice, whose words he didn't understand. A start of fear shot through him, but he persisted.

"I love you, Molly; you know how I love you. I can't bear to have you cold toward me!"

Now the voice at the other end was stronger; he suddenly realized

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

ASPIRIN
Aspirin is a Trademark Registered in Canada

W. N. U. 1806

it was not Molly's voice at all, but the maid's. He heard her quick, distraught words come travelling over the wire like bullets.

"Mrs. Stone is not here. She has gone away."

"Gone away!" Al exclaimed. What do you mean?"

"Yes, sir; Mrs. Stone has packed up her things and gone. She left a letter for you."

Packed her things! Left a letter! Al felt the receiver slipping from his numbed fingers. Why, it couldn't be true; it mustn't be true! Through the glass window of the 'phone booth door he saw the gay dancers; the muffled sounds of their rejoicing reached him in a tantalizing murmur. He felt as if he were far away from them, completely isolated by his dreadful predicament. Molly had elected to leave him on this night of nights!

He fumbled for the dangling receiver and called again.

"Hello! Hello!" he shouted frantically.

"Yes, sir." The maid was still there.

"Please, Celeste, take good care of my boy until I come home. I'll be there in five minutes."

Again that uncanny pause, and then:

"I'm sorry; Mrs. Stone took Junior with her, sir."

Al nerved himself for a last effort. "I'll be right home. Then he dropped the receiver limply and tried to open the 'phone booth door. But the dancing crowd had overflowed the floor and was jammed in the narrow floor space against the door. Their bodies held it tightly closed, as they swayed back and forth, singing, crooning, dancing, but hardly moving in their tracks. Al gazed at them helplessly; it was as if these carefree revellers were deliberately trying to frustrate him tonight.

Then he sent the door open with a mighty shove, just as the lights, which had been dimmed, went on, and the music stopped. The sirens outside were still proclaiming the arrival of the new year—the couples stumbled over one another and over Al in their hilarity. But he saw and heard nothing. He moved relentlessly but quietly through them, his eyes straight ahead, a look of stricken tragedy on his face.

They were too addle-headed to see that look. As soon as he was recognized they pushed about him, clamoring for a song. A hand was held up, tendering a glass of champagne, but Al gently pushed it aside. A girl suddenly threw her arms around his neck and kissed him. As soon as he escaped a man caught him by the arm, calling his attention to his dancing partner and begged Al to meet the "sweetest lil' girl in th' whole worl'." Al did not smile or pause; he simply moved through them with one consuming thought—to reach home and find out about his boy. Then, finally, some of the more sober revellers realized that this popular master of ceremonies, this man they thought they knew, was like a grim-faced stranger in their midst. And they drew back quietly and let him pass.

He reached the lobby and went out into the night bareheaded. The sidewalks were impassably jammed—horns were blown raucously in his ears, a girl threw confetti in his face, blinding him temporarily.

Somehow he reached the curb and looked wildly about for a taxi. There was none in sight, so he started to run, dodging through the overflow crowd and among the motor cars. Some persons, seeing this bareheaded man, with the hurt intent eyes, running as if for his life, stopped and stared wondering what had happened. He reached the apartment house, breathless and exhausted, dashed into the elevator, ran through the hallways, flung open the door of his home. Celeste, the maid, confronted him, an expression of intense pity in her eyes.

Al dashed by her, standing in the middle of the drawing room, looking about wildly. The room appeared just the same, but there was a strange silence in the apartment. He was about to rush toward Molly's room or the nursery when he saw Celeste before him again, holding out a letter. He seized it and the maid discreetly retired.

Al had a terrible dread of opening it, but he nerved himself to the task and ripped back the envelope flap. Then he read the fateful message in Molly's distinctively vertical handwriting:

"Al

"I'm leaving—don't try to persuade me to come back. I don't love you—I never did love you. It was hard enough to bear before John Perry came into my life. Since then it has been impossible."

Al looked up from the letter with a cry of rage and pain. For the first time he saw the whole situation in one blinding flash. Molly not only failed to love him, but she loved someone else. And that someone was John Perry—suave, immaculately dressed John—who, Al had believed, was his best friend. He realized now that Perry, whom he had trusted implicitly, had betrayed that trust from the first. Then another phase in the letter seemed to throb inside his brain—Molly said she had never loved him. She had lived a lie from the moment she said she would marry him!

For a moment this sense of bitter rage and contempt dominated all other thoughts and emotions in him. The sense of being cheated, not only once, but consistently for days, weeks, months, years, made him long to turn on both Molly and John Perry and blast them with scorn.

He recalled the countless times he had overlooked Molly's petulant moods, selfish caprices and savage outbursts of anger, always believing that she was loyal and fine underneath.

Now, suddenly, his thoughts turned to Junior, and he read on:

"I was going to leave the baby, but he woke up as I was leaving. He held out his arms to me and, after all, he is more mine than yours."

"MOLLY."

Al ran to the nursery. The dresser drawers had been pulled out and there were evidences of hasty packing all about. Some of Junior's toys lay scattered about the floor, among them his favorite, a woolly dog. His pillow had been thrown in the corner.

Al stood, dazed, gripping the foot-piece of Junior's bed. Where had Molly taken his boy?

For a moment Al was possessed by the determination to find Molly and Junior tonight—then he realized that the plan was futile. In this city of seven million persons and countless skyscraper hotels Molly and John Perry could have taken Junior, hiding away without difficulty.

After that note Al did not doubt that Perry was with Molly. Perhaps even now they were speeding toward Boston in Molly's Rolls-Royce, or they might have caught the night limited for Florida several hours ago. He went quickly to the 'phone and called up the garage.

(To Be Continued.)

The Oil For the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

In Bolivia all the useful minerals belong originally to the state.

For Sprains—Use Minard's Liniment.

Says Farewell To Regiment

The evacuation by the second battalion of the Leicestershire regiment, the first complete British unit to leave the Rhineland, brought stirring farewell scenes. Practically the entire population turned out in the drenching downpour of rain to wish the soldiers godspeed.

GOOD IN EVERY WAY

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicine that all mothers praise—one good in every way—one that will quickly banish the minor ills of babyhood and childhood is the medicine to keep in the medicine chest; to always have on hand in case of emergency. Such a medicine is Baby's Own Tablets—they are helpful at all times. They are a mild but thorough laxative which by regulating the bowels and stomach banish colds and simple fevers; correct constipation and indigestion; relieve colic and diarrhoea and make the cutting of teeth easy.

Thousands of mothers use no other medicine for their little ones. Among them is Mrs. J. H. Bromley, Westmeath, Ont., who writes:—"I have four children and whenever any of them are ill I always use Baby's Own Tablets and have found them good in every way. I would not be without the Tablets and would also like your little booklet 'Care of the Baby in Health and Sickness.'"

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

All things come to those who wait—except the man who owes you money.

Courtesy Of the Road

Majority Of Drivers Have To Suffer For Carelessness Of Selfish Ones

The majority of drivers are without doubt, safe and considerate; but unfortunately all road users are at the mercy of an ignorant and selfish minority, who seem to imagine that a display of recklessness will be mistaken for an exhibition of proficiency. The cult of the cheap car has not been attended by a corresponding cultivation of good manners. Until the quick-tempered, self-centred motorist learns that there is a code of courtesy which must be adhered to on the King's highway, the innocent will continue to suffer for the sins of the guilty.

The up-and-coming young man is pretty likely to succeed, unless he is up at four and just coming home.

Neon light signs are now popular in China to advertise restaurants, business houses, and newspapers.

Good for Cattle

Keep Minard's in your barn for distemper and colic. An excellent first aid for your stock.

Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Broad, ceiling-high sections of Gyproc can be nailed directly to joists and studding—easy construction with a minimum of labor.

Beautiful decorative effects can be obtained by applying Alabastine, paint, paper or panels right over Gyproc walls and ceilings.

CHEVROLET SIXES
Sold this year
as any other six
at any price
in any year!

NO other six-cylinder car has ever earned, in any year, one-third the public acceptance . . . one-third the volume of sales . . . which have been bestowed upon Chevrolet Six during the nine months since its introduction.

This tremendous public acceptance is due to three outstanding facts. To the fact that Chevrolet offered, for the first time in history, a six at the price of a four . . . To the superb standard of quality in Chevrolet's design, material and workmanship. And to the new, greater performance abilities that Chevrolet Six provided.

Chevrolet Six was four years old in experiment, in research, in testing, in proving . . . before the first Chevrolet Six was placed in the hands of its owner. And that owner . . . like the million and a quarter owners who followed his example . . . SOLD HIMSELF on the Chevrolet he bought . . . on the road, behind the wheel. Why not let us place a Chevrolet Six at your disposal . . . and form your own opinion of its value.
